### **Small Enrollment Hutterian Schools**

School Divisions have the responsibility within the Public Schools Act to determine the location of schools and grades and programs to be offered at each school. In carrying out this responsibility and in recognition of the uniqueness of the colony situation, the Pine Creek School Division will provide a public school in each colony that has an enrolment at at least ten (10) full time equivalent students. If the enrolment is less than ten (10) full time equivalents, a school will be supported provided that satisfactory arrangements regarding building and staff can be made and provided that the colony cost shares as follows:

- Four thousand dollars per full time equivalent student that the enrolment is less than ten (10) students
