Student Threat Assessment

Pine Creek School Division Threat Assessment Policy

The Board of Trustees of the Pine Creek School Division is committed to creating and maintaining an environment where students, staff, parents and others feel safe and respected.

Therefore, the Board of Trustees articulates beliefs, guidelines, and practices that support a safe, secure, and positive learning environment and that provide fair notice that threat-making behaviour will receive heightened attention to assess the level of risk attached to such behaviour.

This policy and regulation outlines procedures for assessing student behaviour to determine the level of risk presented, recognizing that early identification and intervention by a trained team is critical to alleviating any concerning behaviour.
