Student Absences and Truancy

The report card form will include a record of classes missed in each course and such notification will be sent to parents in the regular reporting periods - November, January, April, and June. In instances where truancy is suspected, parents will be notified by the school as is necessary. In order to qualify to write final examinations, a student shall be required to complete course work as designated by the teacher and the principal.

When a student has missed a test or assignment because of truancy, the student shall receive a mark of 0 on that test or assignment. Acceptance of late assignments and writing of tests after the date the test was due to be written shall be at the teacher's and principal's discretion.
