Use of Motor Vehicles by Students

Students will be permitted to park vehicles on school property as designated by the principal. Students are responsible to the Principal for the contents of the motor vehicle. If the Principal has reasonable grounds to believe that a student motor vehicle, parked on school property contains alcohol or drugs, the Principal has the right to search the vehicle and to prevent the student from entering the school. Since students are responsible to the principal for their conduct both to and from school, abuse in the use of a motor vehicle on school property shall result in the loss of permission to park on any Pine Creek school property for the balance of the school year.
