

Pine Creek School Division

Accessibility Statement of Commitment

Pine Creek School Division will endeavour to plan to meet the recognized needs that are known and needs that may arise throughout the process of creating its Accessibility Plan. The division is committed to continuously and confidentially address the needs of our students, families and the general public. The Division is also dedicated to the practice of removing and preventing any barriers that may affect current and potential employees in the Division.

The Board of Trustees believes this initiative will provide all citizens the opportunity to fully participate in school life while accessing the full benefits that our school system provides to its communities.
