

## **Pine Creek School Division**

**Policy:** GBEF  
**Approval Date:** September 13, 2016  
**Resolution #:** 13  
**Revision Date:**

### **Wireless Communication Devices**

This policy is intended to promote communication and the integration of technology for both staff and students.

Proper communications and access to divisional and itinerant employees assists these employees in both achieving divisional goals and providing support to schools, students and offices in a timely manner.

The Pine Creek School Division Board of Trustees will provide an allowance for communication devices to some employees where these devices will provide a level of security while travelling on division business, increase accessibility and help address issues in a timely fashion.

The spirit of this policy is that wireless communications approved for employees will meet or enhance student, employee and divisional needs.
