For the 2023/24 budget, the Allowable and Unsupported expenses worksheets, including Appendices A and B, are used in the calculation of:

(1) Allowable Expenses for:

- (a) Library Services, Student Services, Counselling and Guidance and Professional Development for 2023/24;
- (b) Occupancy for 2024/2025 and;
- (c) Coordinator /Clinician, Board and Room and Small Schools supports for 2023/24; and

(2) Unsupported Expenses for Equalization support for 2024/2025.

The first page of the Calculation of Allowable and Unsupported Expenses schedule (page 18 - worksheet tab 'Allowable') is comprised of two inter-related sections - Calculation of Allowable Expenses and Calculation of Unsupported Expenses - with data from the first section flowing into the second section. It is a comprehensive statement of all expenses and the adjustments and deductions necessary to arrive at Allowable and Unsupported Expenses. Appendices A and B, (pages 19 and 20) are calculations of those adjustments and deductions. It is recommended that the appendices be completed first, and then the two input schedules, 'Allow Input' and 'Allow Input 2'. **No input is allowed on the Calculation of Allowable and Unsupported Expenses schedule.**

Total Expenses on page 18 are carried forward from the Operating Fund Expense Detail pages. Functions or programs whose allowable expenses are used in a "lesser of" comparison for calculating components of base support have been included in the Calculation of Allowable Expenses section. Functions 300 and 400 have also been included for the calculation of unsupported expenses purposes.

Allocations to the appropriate functions/programs (i.e. the functions/programs where the related expenses are recorded) are made on Appendix A and the two input schedules, and then appear in the Calculation of Allowable Expenses section of page 18. When you click on the function/program cell, a drop down list will appear. If the appropriate function/program is not included in the list, select 'Unallocated'.

The **Calculation of Unsupported Expenses section** adds the Allowable Expenses (calculated in the Calculation of Allowable Expenses section) to the total of the functions and programs not included in that section, and then deducts the Unallocated Adjustments/Reductions (from the Allowable section), Base Support and Formula Guarantee (from page 2), and school bus amortization (from the Tangible Capital Assets Schedule in the 2020/21 financial statements).

ALLOW INPUT AND ALLOW INPUT 2

The use of the allowable input schedules is mandatory, as no input is allowed on the Calculation of Allowable and Unsupported Expenses schedule. The input schedules are used for all Allowable Expense allocations, with the exception of the items reported in the Adjustments to Expenses section of Appendix A, as those allocations are made right on Appendix A. The allocable amounts total for each section of Appendices A and B are carried to the input pages where error messages will appear until all allocable revenues have been entered. If the appropriate function/program is not included in the drop down list, select "Unallocated".

APPENDIX A, page 19

ADJUSTMENTS TO EXPENSES: amounts entered here are carried forward to the Calculation of Allowable and Unsupported Expenses, page 18. **Select the appropriate function/program from the drop down lists. If the appropriate function/program is not included in the list, select 'Unallocated'.**

- (a) Capitalized Energy Management Systems Costs (including lease or loan payments), net of any related revenues, are to be added to Function 800, Operations and Maintenance.
- (b) Capitalized Section "D" School Buildings Costs are Section "D" expenses that have been capitalized. These should be added to Function 800 Allowable Expenses in order to be included for Occupancy funding. These expenses must be net of any related revenues other than Section "D" Support (e.g. federal funding, insurance proceeds, Manitoba Hydro's share of retrofitting costs, donations, etc.).
- (c) Transfers from the Capital Fund In most cases, funds transferred to the Operating Fund must be deducted from the function where the related expenditure is recorded. This figure is brought forward from the Detail of Transfers to(from) Capital Fund (page 14).
- (d) Leased Non-School Space Lease costs for non-school space, such as division administration buildings and bus garages, must be deducted from Function 800 allowable expenses. If the lease costs include utilities, maintenance, etc., those costs remain in Function 800 to be available for Occupancy funding, and only the rental portion is removed.
- (e) Other Capitalized Equipment and Vehicles Items that have been capitalized such as photocopiers, computer hardware and software, servers, network infrastructure, furniture & fixtures, photocopiers, other equipment (excluding surplus building expenses) and vehicles (other than buses) may be added to the appropriate function or program on page 18 to be available for funding. To do this, on Appendix A enter the adjustment amounts, including lease and loan payments, and the function/program to which each amount is to be allocated. The adjustments will be carried forward to page 18.

APPENDIX A (cont'd)

CATEGORICAL SUPPORT TO BE ALLOCATED: all items except Coordinator/Clinician, Board and Room, and Small Schools data (see notes (a), (b) and (c) below) are cell-referenced from operating fund revenues entered on page 2, Revenue Detail - Province of Manitoba. The Allocable Categorical Support on Appendix A includes only support that could properly be allocated to one of the functions/programs in the Calculation of Allowable Expenses section of the previous page. To make the allocations, the input schedule (Allow Input tab) must be used. The total Allocable Categorical support is carried back to the Allowable Input schedule where an error message will appear at the bottom of the Categorical section until all allocable amounts have been entered. The total Categorical Support is carried to page 18. The difference between the total Categorical Support and the amounts allocated on the input schedule are automatically entered on page 18 on the Unallocated Adjustments/Reductions line.

Please note the following additional data entry requirements:

(a) Special Needs: Coordinator/Clinician grant is determined by taking the lesser of the maximum support (as provided in your Calculation of Support) and allowable expenses. Allowable expenses are eligible expenses minus any related revenues. Eligible expenses consist of salaries, benefits and allowances, professional service fees, and travel and meeting expenses for qualified clinicians and up to one qualified coordinator. Maximum support, eligible expenses and any related revenues are entered on lines A, B and C respectively under the "Special Needs: Coordinator/Clinician" heading.

To be classified as a 'qualified' Coordinator, for purposes of coordinator and clinician support, an individual must hold a Manitoba Special Education Coordinator Certificate or Special Education Teacher Certificate and perform functions which include coordinating special education services and providing consultant services to special education, resource and regular classroom teachers. To be classified as a 'qualified' Clinician, a Manitoba Permanent School Clinician Certificate, or a current Provisional School Clinician Certificate must be held.

Expenses related to individuals with Special Education Teacher certificates, who are not providing coordination services, are not allowable for purposes of the coordinator/clinician support calculation.

Maximum support, eligible expenses and any related revenues are entered on lines A, B and C respectively under the "Special Needs: Coordinator/Clinician" heading.

- **(b)** Small Schools both the maximum support (as provided in your Calculation of Support) and the program expenses must be entered on lines A and B under the Small Schools heading. Program expenses consist of the actual amount expended in respect of all small schools in the school division to:
 - (i) improve the quality of education in small schools, and
 - (ii) provide human and material resources not otherwise available to schools.

Eligible support is the lesser of the two, and is forwarded to Prov Rev 1 page 2.

(c) Board and Room - both the maximum support (as provided in your Calculation of Support) and the program expenses must be entered on lines A and B under the Board and Room heading. Then, eligible support is the lesser of the two, and is forwarded to Prov Rev 1 page 2. Program expenses consist of the sum of the actual amount of board and room, transportation and other miscellaneous costs expended per pupil eligible for board and room support. Expenses related to board and room support must be reported under Program 780, Boarding of Students/Dormitories, in the financial statements. Expenses under Program 780 must be equal to or greater than the expenses reported on the Calculation of Allowable Expenses (Appendix A).

OTHER PROGRAM SUPPORT

Other Program Support is allocated on the allowable input schedule - tab 'Allow Input'.

CALCULATION OF ALLOWABLE SCHOOL BUILDINGS SUPPORT "D" EXPENSES

To determine allowable Section "D" expenses:

Add: - Total of Program 850, School Building Repairs and Replacements.

- Capitalized Section "D" expenses, net of all related revenues except Section "D" Support
- Grounds expenses included in Program 880 which are also listed in Section "D" of the Capital Support Program

 Related revenue other than "D" Support - e.g. Minor Capital Support, federal funding, Manitoba Hydro's share of retrofitting, insurance proceeds, donations, etc.

These calculations determine your school division's allowable Section "D" expenses. If the maximum support is greater than Allowable Section D Expenses, and the Division wants to carry forward a portion of their 2022/2023 "D" support to 2023/2024, the Division may overwrite the amount in box D to insert a lesser amount. The lesser of box C or box D will be used to calculate your "D" support for 2022/2023.

APPENDIX B (page 20)

Amounts to be allocated re **OTHER PROVINCIAL GOVERNMENT REVENUE** and **NON-PROVINCIAL SOURCES** are calculated on Appendix B. A calculation on the right hand side of page 20 starts with the Total Other Provincial Government Revenue and subtracts the Education Property Tax Credit and the Tax Incentive Grant. The resulting amount is carried to page 18 and difference between it and the allocated revenues is automatically entered on the Unallocated Adjustments/Reductions line to be deducted in the Calculation of Unsupported Expenses. Total Allocable Other Provincial Government Revenue is carried to the Allow Input schedule where the allocations are made. **Non-Provincial Sources** revenues are split into Total Allocable Fees and Total Allocable Other Revenue on the right hand side of page 20. These totals are carried to both page 18 and Allow Input 2.

On the Allow Input schedules select the appropriate function/program from the drop down lists. If the appropriate function/program is not included in the list, select 'Unallocated'. It is up to the division whether all items that would fall into the unallocated category are listed separately on the input schedules or entered as one total. Until all allocable amounts have been entered, an error message will appear at the bottom of the appropriate section of the input schedules.

It is not necessary to allocate the following revenues:

- 1 Special Requirement, Education Property Tax Credit, Tax Incentive Grant and Property Tax Offset Grant.
- 2 Interest
- 3 General Support Grant

4 Advertising Revenue

Advertising revenue is defined as revenue derived from external advertising placed in or on school/school division property for remuneration. Advertising revenue is to be allocated to the extent of any incremental costs incurred to earn the revenue. If there are no incremental costs, the advertising revenue does not have to be allocated.

5 International Student Tuition

The amount of international student tuition revenue to be allocated on the Calculation of Allowable and Unsupported Expenses is the total of the division's per pupil expenditure (calculated in accordance with FRAME) times the international student enrolment plus any incremental expenses incurred in generating international student tuition. International student tuition revenue in excess of this total does not have to be allocated.

6 School/School Division Donations

Donations provided in support of specific activities or expenses must be allocated if the associated expenses are included in the school division financial statements. Donations that are not provided in support of specific activities or specific expense are not allocated.

7 School/School Division Fees and Charges

If the associated expenses are included in the division operating fund then the revenue is to be allocated in the Calculation of Allowable and Unsupported Expenses.

8 Rental Revenue for Surplus School Buildings

Rental revenue for each surplus building must be allocated on the Calculation of Allowable and Unsupported Expenses up to the amount of the direct cost for the building included in Function 800. Direct cost includes all costs associated with the operation of the property including maintenance, repairs and replacements, insurance and property taxes.

If there are special circumstances, other than those mentioned above, for not allocating revenues, the amount not allocated is to be reported in the "Non-allocable" column on page 20 and the **reasons for not allocating must be provided.**
